

## Boycott Gasoline - Earth Day to May Day

**No Fossil Fuels. No War. No Climate Catastrophe.**

**Tax fossil fuel windfall profits!  
Fund stimulus checks & clean public transportation!**

Earth Day Strike 2022  
for People, Planet and Peace over Profit

As armed conflict drives us closer than ever to the brink of nuclear annihilation – we are also plunging over the cliff of climate catastrophe! Oil and gas are fueling both of these disasters.

**Fossil fuels are the #1 source of greenhouse gases destroying the climate.**

**Likewise, the war in Ukraine – like past and present conflicts** in Yemen, Iraq, Libya, Afghanistan, Syria, Nigeria, Sudan and more – **are driven by disputes over fossil fuels** and transport routes, compounded by ethnic/religious tensions and corrupt, ruling oil elites.

Fossil fuels not only underlie these conflicts. They also power the production of weapons & the conduct of war, making the US military, for example, the world's largest single institutional producer of greenhouse gases.

We must hit profiteers where they feel it. **Let's slow the cash flow through the economic pipeline that fuels the banks, oil barons & war makers from Earth Day to May Day** – ten days to steer away from war and climate crisis!

- Use public transportation, or bike or walk where feasible.
- For those with no alternative to driving, consider car pooling and reducing non-essential driving.
- Demand elected officials – from the local to national government – prioritize alternative transportation: sidewalks, bike paths & public transit.

Run the war makers & oil-igarchies off the road.

Demand alternative transportation

**Pledge to Join the Gasoline Boycott Now**
