

SAVE THE DATE!

April 22nd Earth Day Strike for People, Planet & Peace over Profit

Halt the engines of economic, environmental & military destruction with school and work stoppages, rallies, boycotts, pickets, sit-ins, teach-ins, and peaceful direct action to heal a violent world. This will kick off 10 days of action - from Earth Day to May Day - supporting local actions, building community power, and unifying our movements.

Agitate, Educate, and Celebrate

as we come together across movements & borders, calling for solutions as big as the crises barreling down on us: Climate Collapse, Endless War, Crushing Economic and Racial Inequality, Recurrent Pandemic, Rising Authoritarianism, and the Assault on Freedoms of Press, Privacy and Protest
